Work Experience

Insider Istanbul, Turkey
Software Developer May 2025 – Present
Developing scalable front-end and back-end modules for global marketing automation tools. Collaborating with product, QA, and data teams to deliver high-performance user-facing functionalities. Improved page-load efficiency, refactored legacy UI components, and contributed to A/B testing infrastructure.
Technologies: JavaScript, jQuery, HTML, CSS

CBOT Remote
Fullstack Developer Mar 2024 – May 2024
Worked on conversational AI dashboard and automation tools. Implemented new API endpoints, improved UI responsiveness, and optimized MongoDB queries. Collaborated with UX team to redesign chatbot conversation flow builder.
Technologies: Angular, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

Kocaeli University – IT Applications Center Kocaeli, Turkey
Frontend Web Developer Intern Jul 2023 – Jan 2024
Modernized university websites using React and component-based architectures. Developed reusable UI structures and integrated dynamic content via REST APIs. Gained experience in responsive design, accessibility, and design systems.
Technologies: React, JavaScript, HTML, CSS

VakıfBank Istanbul, Turkey
Fullstack Web Developer Intern Aug 2023 – Sep 2023
Built internal e-commerce dashboard for category, product, and cart management. Designed APIs, created Angular modules, and implemented secure authentication logic. Strengthened skills in enterprise development workflows and version control.
Technologies: Angular, ASP.NET, MySQL, TypeScript

Trtek   Kocaeli, Turkey
Intern   Aug 2022 – Jul 2022
Learned OOP principles and C# fundamentals. Developed Windows Forms applications focusing on user interaction and event-driven design.
Technologies: C#, Windows Forms

Volunteering

Speakt Together Club — Moderator   2024–Present
Organizing weekly English-speaking sessions, moderating discussions, and helping participants improve fluency and pronunciation.

Google Developer Student Club — Team Member   2022–2023
Supported workshops on web development and Google technologies. Assisted new learners and contributed to team-driven software events.

Kocaeli University IT Club — Board Member   2021–2022
Helped coordinate organization events, seminars, and educational programs for students interested in programming and technology.
